

History Theory and Platforms– A.I. Summer 2026 ITAI 1370 Entrance Questionnaire

This course is a part of the Artificial Intelligence (A.I.) program at Houston City College. The A.I. Program at HCC is in one of the most exciting areas of the country (Houston, TX). Home of NASA, Space X, Oil and Gas, the World's Largest Medical Center, one of the largest manufacturing infrastructures in the country and super home to Communications Capabilities for most of the big players. Houston and Dallas are also homes to the largest Data Science/Cyber Security Operations anywhere in the country. So, Houston and Texas have it all. What is important for you to know is that with so much industry already in the action of major A.I. Implementation it makes Houston an inviting HOTBED of A.I. development. With so much activity comes many types of new job opportunities.

It is important to Houston City College to make sure we help you chart a clear path to where you would like to go professionally. Artificial Intelligence is going to be everywhere and in every field from retail to healthcare to construction to Finance to Business to Real Estate, Manufacturing, Education and HR (talent engagement). This affords you many opportunities to take what you already know and what you are learning and find the opportunity that is right for you. Our job is to help you get there. Whether you stay a part of this program or not we would like to help you nail down that right pathway for you.

If you don't mind, please tell us a little about you and where you are headed. We would like to keep in touch and follow up with you over the next few years to see if we contributed to your professional growth as well as send helpful information your way regarding developments in the A.I. marketplace that might help you. This is purely optional – you can leave blank any questions you don't wish to answer. Everyone who submits this form gets a grade of 100%, even with no answers.

1. What prompted you to take this course? I like to take courses in Mathematics, Speech, AI, and Cyber Security to motivate me to study harder. _____
2. What are you interested in doing professionally?
_None_____
3. What is a general email address for you? (This will only be used if we cannot reach you via the course email in the Inbox Tool of the Canvas website for the course.)
